- *I, Robot* by Isaac Asimov

## Assignments

You will complete these assignments during the course.

Each lesson in the course is followed by a self check quiz. These computer-graded quizzes **do not** count toward your grade. They are designed to test your understanding of the presented material and to prepare you for the unit quizzes and the final exam.

The course consists of 6 units. Every unit ends with a unit quiz. These computer-graded assignments count toward your grade. They are one of the best ways to prepare for the final exam

In addition, every unit has a written type of assignment called a portfolio assignment. These are instructor graded assignments that vary in style and length. Save each one as you complete it. You will turn them all in at one time at the end of the course.

## Exams

You will complete one final exam for this course.

The final exam consists of 40 multiple choice questions.
