Launch Geometry

Course Information:

1 Credit

Asynchronous Canvas Course

Course Site: https://akgrad.instructure.com/

Course Description: This course is designed for students at a lower reading level or students who are At-Risk, or in danger of not graduating high school. Launch Geometry is designed to meet the needs of online students who have had difficulties with traditional classroom or other correspondence classes that do not meet a student's needs and need to earn a Math credit.

Topics covered include: Dimensions, Relationships with Lines and Angles, Polygons and Circles, Perimeter, Circumference, and Area, Volume and Surface Area, Coordinate Geometry, and Applications with Geometry.

Course Organization: The course is divided into four units. Within each unit are lessons which are broken down into smaller lessons based on learning outcomes. For each lesson, you are required to read a section of the textbook, complete practice problems from the textbook, and then take an online quiz. Many lessons also have an accompanying video in the online portion of the course.

Materials Required:

- Computer or tablet with Internet access
- Power Basics Geometry Book

Academic Dishonesty: With most correspondence courses as well as AKGrad & YKSD, honesty of parents and students is essential. If an AK Grad teacher confirms that a student has plagiarized work or used AI, the student will receive a 0 and be subject to consequences determined by their school of record.

Grading: Activities and quizzes are designed to be completed as many times as necessary to earn the grade that you would like to earn. If you are struggling on activities or quizzes, you should contact your online teacher for additional support.

 Assignment Quizzes: Quizzes are mostly computer scored and you can see your incorrect answers immediately so you can retake if necessary. Quizzes consist of approximately 10 questions. The question format is largely multiple choice but can also include fill-in-the-blank, matching, or short answer. It is also

- permissible to use notes, study materials, and books on the quizzes. You have 2 tries to take each quiz and additional attempts can be given upon request.
- **Tests**: You are <u>not allowed</u> to use notes, study materials, or books on the tests. The tests are meant to reflect how much you have learned while completing the lessons and activities. Tests consist of 20 multiple choice questions.
- Application Activities: Each unit includes two Application Activities. These
 activities will let you extend and apply what you have learned in the unit. The
 Application Activities are teacher graded. Please read the online directions
 before completing the Application Activities in the textbook. Many of the
 Application Activities include videos, images, and additional directions to help
 you.

The following grading scale will be used for determining your final grade. After completing the course with a "D-" or better you will receive one Carnegie credit from the Yukon Koyukuk School District.

Percent	Grade
97% - 100%	A+
93% - 96%	А
90% - 92%	A-
87% - 89%	B+
83% - 86%	В
80% - 82%	B-
77% - 79%	C+
73% - 76%	С
70% - 72%	C-
67% - 69%	D+
63% - 66%	D
60% - 62%	D-
< 60%	F

Course Schedule: Though you are in charge of your own schedule, we will encourage you to create a schedule for completing the course. As your teacher we will support you in meeting your goals. A pacing guide is provided in the course. The following is a list of lessons that need to be completed.

1st Quarter Unit 1 Lines and Angles	2nd Quarter Unit 2 Perimeter, Circumference, and Area
 Points, Lines, and Dimensions Angles Equal Angles Triangles Right Triangles and the Pythagorean Theorem 	 Perimeter Area of Parallelograms Area of Triangles and Irregular Shapes The Parts of a Circle Finding Circumference Measurements Area of a Circle Diameter, Radius, Circumference, and Area Word Problems with Perimeter, Circumference, and Area

<u>3rd Quarter</u> Unit 3 Volume	4th Quarter Unit 4 Coordinate Geometry
 Volume of Rectangular Solids Volume of Pyramid Volume of Cylinder Volume of Sphere Word Problems with Volume 	 Number Lines The Coordinate Plane Graphing Lines on the Coordinate Plane Linear Equations Slope

Subject to Change

This syllabus and schedule are subject to change in the event of extenuating circumstances. Your instructor will notify you of changes via Canvas announcements.
