
Geometry, Part 2 (GEOM-043)

Mathematics Geometry, Part 2 Syllabus

Course Description

Geometry part 2 covers three major concepts including circles, area-volume-spatial awareness, and statistics. Along with learning these three pieces of knowledge, the course will also have you develop 21st Century Skills in openness and courage to explore as well as the attribute of integrity.

Prerequisites

There are no prerequisites for this class, but it is recommended to have taken Algebra 1 part 1 and 2, as well as Geometry part 1.

Canvas Information

If you're new to online courses, or if you just need a quick refresher, be sure to take a look at the Student and Parent Handbook.

Course Materials

There are no textbooks required for this course, all content can be found within the course lesson pages.

Students may use a handheld graphing or scientific calculator or a Desmos online calculator (found at desmos.com/scientific or desmos.com/calculator).

Course Policies

For information about how long you have to complete the course, resubmitting assignments, retaking quizzes, and other questions, please contact your AK Grad instructor.

Course Learning Outcomes

By the end of this course, you will be able to:

1. Identify and evaluate all aspects of circles both in graph and equation form.
2. Calculate area and volume of polygons as well as have spatial awareness of both 2D and 3D models.
3. Perform basic statistic calculations including probability, permutations, and combinations.

Grading and Assignments

Your grade in this course will be based on these assignments and exams.

Grading Scale

Assignment or Exam	Grading	Percent of Total Grade
Topic Assignments	Computer Graded	20%
Application Problems	Teacher Graded	15%
Module Quizzes	Computer Graded	35%
Content Guides	Teacher Graded	10%
Mid-Course Quiz and Final Exam	Computer Graded	20%

Topic Assignments

Each module consists of 4 topics. Each topic has one Topic Assignment where you will be asked to demonstrate your knowledge of the content learned from the lesson material. In total there are 56 Topic Assignments in the course.

Application Problems

At the end of each module you will have 2 application problems. There are instructions, templates, and a rubric provided to help you be successful in completing this portion of the course. The 21st Century Skill of Reasoning is taught through the completion of application problems.

Module Quizzes

At the end of each module you will take a quiz that covers all four topics taught. Module quizzes allow for two attempts on each question and do not generate additional questions.

Exams

You will complete these exams during the course.

Mid-Course Quiz #1: The mid-course quiz is found in Module 4 and covers all of the material learned in Modules 1-3.

Mid-Course Quiz #2: The mid-course quiz is found in Module 10 and covers all of the material learned in Modules 5-9.

Mid-Course Quiz #3: The mid-course quiz is found in Module 15 and covers all of the material learned in Modules 11-14.

The mid-course quiz, like module quizzes, allow for two attempts on each question.

Final Exam: The final exam is a comprehensive final that covers all material learned in the course from Module 1 through Module 15.

Final Grade

Your grade in this course will be based on these assignments and exams. Your letter grade will be calculated according to these percentages.

Grading Scale

Percent to Letter Grade Calculation	
A	100% - 94%
A-	93% - 90%
B+	89% - 87%
B	86% - 84%
B-	83% - 80%
C+	79% - 77%
C	76% - 74%
C-	73% - 70%
D+	69% - 67%
D	66% - 64%
D-	63% - 60%
F (fail)	59% - 0%
